

*Northeast Regional Cancer Institute
Patient Navigation Screening Program
Cervical Cancer Education and Screening- 2017
Wilkes-Barre General Hospital*

EDUCATION

- Over 529 participants in the Navigation Program received one-on-one (via telephone) education about the importance of cervical cancer screening
- Over 529 participants in the Navigation Program received written materials and resources (via mail) for cervical cancer screening
- 10 community programs included information about cervical cancer screening and resources for 215 participants

SCREENING

- 155 participants in the Navigation Program received cervical cancer screenings
- All participants were connected or re-connected to a medical home
- 9 pap tests were reported as abnormal and required additional diagnostic testing
- 7 diagnostic tests were completed and 3 are scheduled including ultrasounds, colposcopies, biopsies, LEEP, and repeat pap tests

TREATMENT

- One patient was diagnosed with cervical cancer (surgery scheduled)
